Event details:

Date :04th January 2019.
Time :5:30 pm – 7:30 pm.
Venue : Sri Keerthana Foundation, Hasthinapuram, Hyderabad.

Freezing days of January in Hyderabad, when the entire city dons their sweaters, monkey-caps and mufflers with a hot cup of tea, there are few under-privileged who cannot afford even a blanket.
Hence an initiative was taken by IEEE MVSR SB to make it a way to distribute clothes and blankets for the children. This opportunity was also utilized as an interactive session where the students were given inputs on education and technology.

At Keerthana Foundation:
On 04th January 2019, the IEEE MVSR Student Branch has visited the Sri Keerthana Foundation. It is a non-profit and non-governmental organization. The foundation was started by Mr. Anil Kumar and his wife Madhavi. The NGO is working for the less- privileged and vulnerable children in the areas of education and health.

As we made our steps to the orphanage, the children were so excited to meet us and interact with us. There was a huge smile on the faces of the children and they were happy to engage.

The importance and essence of education is conveyed to the children by our coordinators. The main theme we followed was that education facilitates learning, knowledge and skills. The coordinators came up with fundamental concepts aiming at the enhancement of the children's productivity.

Members explaining the importance of education.

Later on, our coordinators interacted with the children and boosted their confidence by giving moral support and strength.Our intention was to have some quality time with the people at the orphanage at the same time not letting them feel that we feel sorry.

"How you make others feel about themselves says a lot about you".

Team interacting with the children and nurturing them.

It's not for sympathy but it's the feeling of empathy that made us plan for the visit. The interaction was very memorable as most of them opened up their thoughts.
It was time for us to leave, we distributed biscuits to the children.

RVSV Prasad distributing snacks to the children.

We as a Student Branch pledged since our inception to carry this culture and tradition to instil knowledge, educate the deprived, teach simple engineering practices, career awareness and above all we believe in "Being Human".
