Event details:

Date : 05th April 2019.

Time : 10:00 am – 1:30 pm.

Venue : Spurthi Orphanage, Hyderabad.

IEEE CS MVSR has taken an initiative to visit an orphanage and instil knowledge among children.

Spurthi orphanage is a non-profitable organization working for orphaned, abandoned, destitute and other vulnerable groups. Their mission is to change lives of such children by providing them long term care which includes basic needs, education etc.

Great things happen not only because of proper planning but with all the will power and the intention to do good and spread love.

A vision was created and taken forth by the team to educate children with basics of MS Office.

Organizing team:

The initiation was taken by Saketh Bandaru(IEEE MVSR SB chairman) and Syed Ahmed Ali (IEEE CS MVSR Chairman).

The team of volunteers planned and executed the event successfully under their guidance.

Faculty coordinator:

Dr.D.Hari Krishna (IEEE MVSR SBC),

Mrs.B.Saritha (IEEE CS MVSR Advisor).

It all started with the warm welcome from the little souls having the purest smile on their faces. The volunteers could easily mingle with the children.

It was when Mr.Dilip welcomed us and explained about how they are managing to meet the basic necessities of the children. Though it was a small organization with less than manageable sponsorships, he could run it with all his will power and urge to serve the society with all the humanity.

The children were of different age groups and hence we conducted several activities based on the age and understanding of the students.

We decided to split ourselves into 2 groups to coordinate the children.

Activity 1: Knowledge session on MS Office

Some of the applications like MS Word, MS Power Point, MS Excel etc., which are basic and are used in any field and became a basic necessity for the students. Hence our volunteers took a small session to explain the children about the importance and the basics of MS Office.

Activity 2: Painting Competition

Painting competition was conducted to the children studying in primary and pre-primary. The competitive spirit was hitting the roof among the children within a healthy range.

The children were enthusiastic to add colours to white sheets putting a wide spread smile on their faces. We distributed paint brushes, paints , glitters , crayons and plane sheets among the children.

There was huge joy spread in the air with all the colours and paintings. Each and every child put a theme for themselves and painted their sheets breaking the bounds with creativity and thinking out of the box. People generally say that “**Painting is another form of expression**” and the children expressed their view towards social responsibility, humanity and their love towards our country.

Later on, the children danced and expressed their joy.

We distributed stationery and sweets to the children.

“We leave something of ourselves when we leave a place. And then they can be found only by going back there” and we left our love, the hope of spreading knowledge and humanity to the society. We pledged to make it a habit to visit such places and spread all the knowledge we could instil with humanity.
