

IEEE- Student Branch at IIEE

Nine Years ago, on June 15, 1999, the foundation of IEEE-IIEE Students Branch was laid by a group of students in an effort to establish an active student body which can contribute towards the development of Industrial Electronics technology, to do more with less resources was indeed a great challenge but the team with its innovative ideas resources was indeed a great challenge but the team with its innovative ideas an timely assistance from Mr. Ashab Mirza, our Branch Councilor, was successfully in constituting the Student Branch.

Since its inception, the Branch has proved to be one of the most active Student Branches in Pakistan. The IIEE-IEEE student branch regularly arranges technical activities for the members that are focused on advancing their know-how and general technical standing as electronic engineers. Keeping in view the age of our fledgling branch, our achievements have been enormous. Since its inauguration in 1999, IIEE-IEEE has taken giant leaps in these few years.

Each year we make our presence felt by arranging a Country level Student Conference “e-Indus”, a technical seminar in which students from many Engineering Universities come up with their expertise by displaying their projects on a variety of subjects. More than 1000 Professionals, Entrepreneurs and Industrialists attend this conference.

We have got the pride of being ranked twice as one the best five IEEE Student Branch websites in the whole Asia Pacific Region for the consecutive years of 2000 and 2001.

Also two students of IIEE-IEEE Students Branch, Mr. Ismail Sultan and Mr. Khalil have been selected as recipients in Myron Zucker Travel Program 2001 of IEEE Industry Applications Society (IAS).

In 2008, 5 students of IIEE-IEEE students Branch, have been awarded “Myron Zucker Application Student Design Award” for their project “**Machine Vision System for Industrial Product Inspections**”.

Our challenge is to serve the Engineers with the best trial possible platform. So visit IIEE-IEEE Student Branch Website and explore our Student Branch.
