

Transportation Systems and
Systems of Systems Committee
Report

Paul Kostek

9/21/2004

Scope

- Coordinate & integrate transportation systems and system of systems into AESS activities
- Increase industry participation
- Identify and implement new conferences/symposiums
- Develop new alliances with other IEEE (ITS) and non-IEEE Societies (AIAA, INCOSE)

Operating Principles

Increase awareness of AESS and establish AESS as source of data/support for transportation related projects and standards

Outreach to industries in US, Europe and Asia

Committee

- Members
 - Past DASC Chairs
 - Industry reps – Aviation and ITS from US, Europe and Asia.

Timeline

- Identify candidates for committee
- Hold kick-off meeting early 2005
