

*(Left) A reception concluded EMC Fest 2002 in Phoenix. The heat must have affected this crowd by the end of the day! Toni Gurga of Credence Technologies is shown giving a "thumb's up" sign of approval after having won a digital camera donated by the Phoenix EMC Chapter as a raffle prize. Toni shows his excitement by bugging Janet O'Neil of ETS-Lindgren who drew the winning business card. Harry Gaul (far left) of the Phoenix EMC Chapter who handled registration for the event cheerfully passed along the camera. It was all exhibitor Wendy May of Eclipse Shielding (seated) could do to keep from laughing at the spectacle of fellow exhibitor Jerry Ramie of Compliance Systems Corporation (partially hidden) giving Toni the "bunny ears" look. That Jerry!*

*Clayton Paul is shown doing what he does best: Educating engineers and technicians on the fundamentals of EMC.*
