

Scenes from EUROEM 2004, Magdeburg, Germany, July 12-16

The Symposium Chairs met EMCS officers in the IEEE EMCS Membership Booth in the Exhibit area. From left: Back row: Heyno Garbe, Elya Joffe, Kimball Williams, Todd Hubing, Frank Sabath and Nigel Carter. Front row: Jürgen Nitsch and Günter Wollenberg.

More than 500 scientists participated at EUROEM 2004, including the granddaughter of the symposium chair, Anthea Nitsch (right).

In a historic ambient, Dr. Carl E. Baum received the Dr.-Ing. E.b. (PbD honoris causa).

Otto von Guericke himself performed his historical experiment (Magdeburger Hemispheres). Dr.-Ing E. b. Carl Baum had the honor to separate the hemispheres (below).

The symposium banquet at the millennium tower, a museum of human history and science.

Handover of the new funded AMEREM/EUROEM trophy from the recent symposium chair, Jürgen Nitsch, to the Chair of the next AMEREM 2006, Don McLemore.
