

EMC 2007 Calendar Now Available!

As part of the EMC Society's 50th Anniversary celebration year, a 2007 calendar was created that features scenes of Hawaii, location of the 2007 IEEE International Symposium on EMC, as well as provides key dates related to the history of the EMC Society and important planning dates for this year's Symposium. Calendars were mailed to all EMC Society members along with an EMC Society 50th Anniversary commemorative pin, a bookmark, and the 2006 IEEE International Symposium on EMC in Portland proceedings CD. If you have not received a calendar, or would like an extra one for a colleague,

please contact Dan Hoolihan at d.hoolihan@ieee.org. You will receive this complimentary, while supplies last. Don't forget to wear your 50th Anniversary pin to EMC events in your area this year!

Many thanks to the following companies who contributed to the production of the calendar, including: IBM, Agilent Technologies, AR Worldwide, Spira Manufacturing, FerriShield Inc., Advanced Test Equipment Rentals, Murata Electronics, ETS-Lindgren, LeaderTech and IEEE.

Agilent Technologies

FerriShield[®], INC.
Interference Control Components
