

Plenary Talks

Monday, June 16, 2008, Morning

The Physics of ITER

David J. Campbell

ITER Organization, Cadarache, France

Monday, June 16, 2008, Afternoon

Goals and Achievements of the COE Program on Pulsed Power at Kumamoto University

Hidenori Akiyama

Kumamoto University, Japan

Tuesday, June 17, 2008, Morning

Giant Planets as Laboratory for High Energy Density Physics

Ronald Redmer, Nadine Nettelmann, Winfried Lorenzen, Bastian Holst, Martin French and André Kietzmann
University of Rostock, Germany

Tuesday, June 17, 2008, Afternoon

Plasma Physics for Gas Discharge Lighting

Graeme G. Lister

OSRAM SYLVANIA, CRSL
Beceley, MA, USA

Wednesday, June 18, 2008, Morning

2008 PSAC Award Plenary Talk

Laser-Pumped X-Ray Free Electron Laser

Phillip Sprangle

Naval Research Laboratory
Washington, D.C., USA

Wednesday, June 18, 2008, Afternoon

Particle Beam Induced Light Emission

Andreas Ulrich

Technical University of Munich
Garching, Germany

Thursday, June 19, 2008, Morning

State of the Arts of the LMJ Laser System for Inertial Confinement Fusion

Didier Besnard and Jacques Ebrardt

CEA Centre DAM, Arpajon, France
