

Tour # T4 – ORNL Spallation Neutron Source Tour

Friday, November 5, 2010, 1:30 pm (Approximately 2 hours)

Oak Ridge National Laboratory operates the Spallation Neutron Source (SNS), one of the world's foremost facilities for the study of materials. Built and funded by the U.S. Department of Energy Office of Basic Energy Sciences, SNS provides the most intense pulsed neutron beams in the world for scientific and industrial research and development. This tour will involve a visit to the SNS facility.

For more information see the SNS website: neutrons.ornl.gov

Note: Due to U.S. government requirements, it will be necessary to pre-register for this tour at least two weeks in advance of the conference. Participants will need to bring a government-issued photo ID (e.g. a passport or drivers license).
