From William H Bartley, liason to WG for P62.2 :

**Guide for Diagnostic Field Testing of Electric Power Apparatus – pt 2 Electric Machinery**

Our Working Group is pleased to announce that this Guide successfully a Recirculation Ballot last summer and has been approved by the Standards Board. It is currently in the hands of the IEEE editorial staff, where it is being updated to the 2005 style format. It should be available to the public later this year.

Respectfully Submitted
