Dear Osama:

### **Nomination of EMC Working Group Awards**

As the Chairman of the Generator Subcommittee Awards and Recognition Working Group, I am pleased to notify you that the nomination for awards is being submitted to the EMC. First, let me thank all the members of the working group for their hard work in supporting this important subcommittee function. The nominations are as follows:

**Prize Paper:** "Transpositions in Stator Bars of Large Turbogenerators," by Johann Haldemann, *IEEE Transactions on Energy Conversion*, Vol. 19, No. 3, September 2004, pages 553-560.

**Service Award:** Osama Mohammed for distinguished service as the Chairman of the Electric Machinery Committee during a period of major transition.

**Prize Standard Working Group:** IEEE Std. 1110-2002, IEEE Guide for Synchronous Generator Modeling Practices and Applications in Power System Stability Analysis.

By copy of this letter, I am notifying the members of the Awards and Recognition Working Group that nominations are now open for the awards to be nominated in 2006 and that they can forward these nominations to me any time up to May 10, 2006. Again, I want to thank the working group members for their tireless efforts in searching out the best work products from the Synchronous Machinery Subcommittee for recognition.

Should you have any questions, do not hesitate to call me at (330) 482-9781.

Sincerely,

CC: MVKChari, WG Member  
VKGarg, WG Member  
BEBGott, WG Member
