

GENERATOR SUBCOMMITTEE
WG 7 – Revision of IEEE 115
June 1, 2007

1. The WG is updating the 1995 edition of the standard according to the PAR approved by the Standards Board on March 4, 2005.
2. The WG has established a web site to facilitate the revision work.
3. The WG is conducting telephone conference meetings every quarter and an annual face-to-face meeting at the PES General Meeting.
4. The WG has debated the issue of inclusion of an annex on superconducting machines and the majority voted against such inclusion for this revision.
5. The WG has been notified by the standards coordinator that the deadline for completion of the PAR has been extended to December 31, 2009 and that the current revision must include only SI units.
6. The next all-day face-to-face meeting of the WG will be held on Sunday June 24, 2007 at the General Power Meeting in Tampa starting at 8:00 AM. The WG plans to complete the first draft during this meeting.
7. The WG membership roster is attached.
