IEEE C37.100.1 Study Group Meeting Minutes San Diego, CA

October 9, 2019 10:15 am - 12:00 noon

1. Welcome and member attendance

The meeting was called to order by Chair John Webb, Chair at 10:15 AM. All attendees introduced themselves including employer and/or affiliation.

2. IEEE-SA Patent Policy

A call for knowledge of essential patents was made, none were raised.

3. Roster and Document Status

Initial meeting of study group, a sign-in sheet was circulated with option to request membership was circulated. 78 total in attendance.

4. Discussion Topics

- The agenda circulated by e-mail on 20 September was shown, no requests for modifications were made.
- Chair noted that the Study Group has a limited life of six months from the first meeting with an opportunity to be extended once for an additional six months by the sponsor. Without extension, this study group would expire in April, 2020 prior to the next meeting of the switchgear committee.
- By show of hands a rough count of representatives from different subcommittees was made: HV Switch (11) HVCB (14) RODE (12) SA (20+). The sense of the study group was that although HV Fuses was not represented due to a scheduling conflict, there was enough representation across stakeholders that the work should proceed.
- It was discussed that although LVSD was also absent, the scope of the existing document
 was for ac equipment above 1000 V which does not impact LVSD. Brief discussion
 confirmed that the study group did not believe expanding scope of C37.100.1 to cover
 low voltage equipment was appropriate.
- Chair asked if PAR should be a revision of the document, an amendment of limited scope, or even that no action be taken at this time.
- Eldridge Byron motioned, and Ron Hartzel seconded to move forward with a PAR for a revision of C37.100.1-2018
- Motion to proceed with revision PAR was approved by voice vote with 3 abstentions.
- Draft PAR was prepared during the meeting with input from the study group.
 - Eldridge Byron motioned, and Ron Hartzel seconded that the draft PAR be put forward at ADSCOM meeting for submittal to IEEE-SA.

5. Next Meeting

If ADSCOM accepts the recommendation of the study group and approves the PAR no further meetings of the study group will occur. Chair advised that if approved, interested members of the study group could expect an initial face-to-face meeting of the working group at the Spring 2020 meeting in Reno, NV.

6. Adjourn

The meeting was adjourned at 11:30 AM.

Reported by Russell Boyce, secretary of C37.100.1 Study Group
