2. Introduction

Welcome by Leslie Falkingham, Chair of the WG followed by introduction of members and guests.

3. Review of IEEE SA Patent and Copyright Policies

IEEE SA patent and copyright policies were presented and reviewed.
No patents or copyright claims were identified.

4. Approval of Minutes of Previous meeting

This is the first working group meeting, no previous meeting minutes to review.

5. Draft Review and Discussion

The chair explained that the document could be renewed unchanged. Because it is a dual logo standard the expiring dates within IEEE and IEC are different. After the last meeting communication regarding this schedule difference was made with the IEEE SWGR liaison to explain the schedule difference and request how IEEE wishes the WG to proceed. A discussion with the IEC representative who also attended the F20 session was made regarding a recommendation of how to proceed. The recommendation was to have IEEE propose to IEC that this standard can be renewed without a revision and the revision schedule harmonized.

The Chair asked again (first request was made in the F20 meeting of the PAR study group) if there is an issue with the existing standard requiring a revision, no issue was identified. The HVCB SC chair agreed to bring the issue of revision schedule alignment and document affirmation to ADSCOM and ask for assistance in bringing the issue to IEC.
