There were 30 participants in attendance. 17 of 20 members were present including 13 guests constituting a quorum. See the roster of the meeting included at the end of this document. All present introduced themselves. IEEE patent and copyright slides were shown and no issues were raised. Pete Kowalik motioned to approve agenda and John Kaminski seconded.

Review Comments for Revisions

- The decision was made to bring in the definitions for capacitive testing into C37.30.4. The abstract was changed to exclude the statement “(except capacitive current).” PAR will likely need to be revised.
- Chris Dunn will compare and align definitions with PC37.30.3.
- Boubacar Diallo will help revise document to align with MEC comments.

Agenda for the meeting was completed and the meeting was adjourned.

The acting Chairman announced that the next meeting for C37.30.4 will be held TBD October 5 – 9, 2025 in Reno, NV.
