

STLNA Liaison Report to the IEEE PES Switchgear Committee

Spring 2025: April 8, Bonnet Creek, Orlando, Florida

Chair: Victor Savulyak **Secretary** Frank DeCesaro

Meeting Highlights

1. The STLNA met on Tuesday, April 8, 2025. There were (9) in attendance. Six out of six member labs were represented.
2. **Technical Discussions:**
 - a. IEEE 4-2013 is Inactive-Reserved Standard. Laboratories still will be using it as only document available till new published version released.
 - b. STLNA send suggestions on thermocouple locations to STL Guide C37.60/62271-111 and it was rejected. Mohit Chhabra will provide feedback to Ian Rokser who is convener for that standard.
 - c. STLNA will review newly published IEEE Std C37.20.7-2024
 - d. STLNA will review IEEE Std C37.41-2024 as it will be published
It is not appearing on the IEEE web site unless specifically 2024 edition is searched.
 - e. STLNA will be performing another revision of STL Guide for IEC 60282-1 HV Fuses clarified fuse-link cross section.
