Discussion – GR-487-CORE Requirements

Don Gies: Battery section of GR-487-CORE, Iss. 4 draft uses TSTC proposals to TC108 national committees.

Jim Wiese: Requested Don Gies to send proposals for GR-487-CORE to subtract the battery volume from the cabinet volume when doing calculations. (This comment was actually sent to the GR-487-CORE TTF by Jim's company, Adtran, and was addressed at one of the subsequent TTF meetings.)

Don Gies: There had been activity in the IEEE North Jersey section concerning adding an EMC chapter. The leadership of the North Jersey section considered a PS chapter, but local chapters had been discussed at the TSTC and the PSES level, and it was not suggested to move forward in NJ with a local PS chapter at this time.

Next meeting – Proposed Wednesday, 27 February 2013.

Respectfully submitted,

Don Gies

Vice Chairman
