First Call for Papers

The IEEE 2015 International Conference on Multisensor Fusion and Integration for Intelligent Systems (IEEE MFI 2015) will take place at the College of Extended Studies, San Diego State University, San Diego, CA, USA, September 14 – 16, 2015.

The theme of IEEE MFI 2015 is **“Advances in Multisensors Fusion and Integration,”** representing improved systems performance, improved robustness, extended spatial and temporal awareness, shorter response times, and reduced communication and computing for intelligent sensors and systems.

A sub-theme of IEEE MFI 2015 will be **“Multisensor Fusion and the Cloud,”** representing Innovative and intelligent prediction and decision making over media and sensing resources.

San Diego Attractions Include: San Diego Zoo, Wild Animal Park, La Jolla, Tijuana, Harbor Cruises, Balboa Park, Old Town, Cabrillo National Monument, Sea World, and the Maritime Museum.
