As a leading global provider of optical motion capture technology within Life Science, Engineering and Entertainment, Qualisys has been supplying organizations with state-of-the-art camera systems and software for 30 years.

Qualisys is ISO 9001:2015 certified and all clinical products comply with Medical Device Directive 93/42/EEC and have FDA clearance (K171547). These certifications are a reflection of our dedication to quality and our continued reinvestment in development, technology, and people.

In this conference we are showcasing our technology, High end cameras for motion detection in above mentioned applications.
