Projects: Checkpoint 2 Memo

Checkpoint Memos (due Th. 3/31 and Th. 4/14).

Please write a short memo (1–2 pages is fine) to Dr. Provancher that states what your team's checkpoint objectives are (for all 3 checkpoints and your project as a whole) and how you are doing with respect to these objectives. You may of course, revise earlier submitted project memos as the basis for your memo.

If you are on schedule and have completed all of your checkpoint 1 and checkpoint 2 objectives, please simply state this.

If you are behind and having difficulty please state this, so that Dr. Provancher is aware of this and perhaps can make suggestions to help out.

Please also state if you have any other anticipated concerns for your project.
